Report Type: Vehicle Class

Report Description: This report will allow you to separate your customer leads based on one or more vehicle classes. By targeting an individual vehicle class we can send them mailers and invites that match the current type of vehicle they drive - for example, if you target Trucks, we can send invites with images of your current truck line-up, or of a

particular truck model you have many of on your lot. Choose the class(es) you would like to target from the list. When choosing more than 1, hold 'ctrl' while you select. We suggest not picking more than 3 for a report.

Report Type: Finance Rate (APR)

Report Description: Nobody likes paying subprime interest rates. Bring back your old customers with a Private Sale invite that focuses on the possibility of a lower interest rate based on improved credit scores. This is a great way to target a specific audience that has high residual F&I value. By default, selecting the Subprime option will return all customers with vehicle loans with an APR of 8.5% or higher. We've also allowed you the ability to extract a specific APR range. Use this option for customized targeting.
